

NEW FOR 2024

F-Series Y-block T5 bracket.

***Y-Block F-Series truck Owners...
have you considered upgrading your ride from
a manual 3 or 4-speed transmission to a T5 five speed
But haven't found a way to keep the mechanical linkage?
Modern Driveline Has the Solution.***

***A Bracket Assembly complete with Hardware for the Tremec T5 (WC) to Y-Block,
Simulates Ford T-98 & 3-Speed Truck Transmissions on T5z.***

***We have developed a bracket that simulates the holes on the original transmission
so you can attach all your clutch linkage components.***

***This bracket kit supports various T5 tail housings and bolts into position, saving you
the expense of a hydraulic clutch actuation system.***

Plenty in stock and just in time for the build season.

***Modern Driveline offers a full complement of parts to include the ever-popular
Front-Shift converted Tremec T5z transmission.***

***We also have in stock clutches, fork pins, cross members, slip yokes and driveshafts,
and now our new clutch linkage bracket.***

So, if this has been a stumbling block for you... the wait is over.
